A waiver of the Miami University Libraries Open Access Policy has been created for [burkejj@miamioh.edu](mailto:burkejj@miamioh.edu) for the following publication:

**Tumbleson, B., Burke, J., and Long, J. (2018). Assessment, Analytics, and Analysis: Demonstrating the Impact of LMS Embedded Librarians on Student Learning. Journal of Library & Information Services in Distance Learning, 1-19, DOI: 10.1080/1533290X.2018.1499252.**

**Please Note:**

Even if you take a waiver, the publisher's agreement may provide, or you may be able to negotiate, sufficient rights to allow copies of your article to be made publicly available in the Scholarly Commons. The publisher may ask that certain conditions be met, some of which the repository can accommodate (for example, an embargo period during which the article will not be made publicly available). Information about publishers' standard policies on open access is available from the [SHERPA/RoMEO project](#) (though Miami University has not verified the accuracy of that information).
